

THE WHITE HOUSE

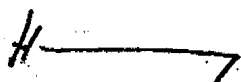

WASHINGTON

May 1, 1973

Dear Wayland:

Thank you for forwarding the copy of the House of Lords' Debate on Energy Policy and World Supplies. These are important issues having long-term implications that will have a major impact on US/NATO relationships over the coming years. As stressed in the President's recent statement on energy, we see the energy problem as another chance to improve cooperation between the U.S. and U.K., as well as among NATO countries in general.

Warm regards,

Henry A. Kissinger
